PROFESSIONAL EXPERIENCE

Aryabhata 3, PragatiFin, Hyderabad – *Lead Mobile Developer*

- Architected and developed the mobile application using Ionic React framework for cross-platform deployment.
- Created reusable UI components with TypeScript to maintain consistency across the application.
- Implemented secure authentication flows using JWT tokens with role-based access control.
- Integrated RESTful APIs for real-time financial data visualization and dashboard functionality
- Optimized data handling and state management across the application using Redux.
- Implemented in-app update functionality to enable seamless application updates without store deployments.
- Conducted regular code reviews and mentored junior developers on best practices.
- Collaborated with product managers and backend teams to align technical implementation with business requirements.

Content Portal, The University of Kansas,Kansas – *Full Stack Developer*

- Developed reusable React components with Storybook for the editorial interface.
- Built responsive student/course interfaces using React, TypeScript and Redux.
- Implemented complex client-side state management synchronized with backend APIs.
- Created adaptive layouts with CSS Grid/Flexbox meeting WCAG standards.
- Established end-to-end testing (Cypress) for critical user flows.
- Contributed to backend development including API integration and PostgreSQL queries.

SimplyTrack , Scriptbees IT PVT Ltd, Hyderabad – *Full Stack Developer*

- Led development of cross-platform mobile app using Ionic React for iOS/Android .
- Built real-time tracking interface with WebSocket connections for live updates.
- Created interactive dashboard with map visualization and route history.
- Integrated native device APIs (geolocation, camera, push notifications).
- Designed frontend architecture for optimal performance on mobile devices.
- Coordinated with backend team on API specifications for data exchange.
- Assisted with basic Node.js endpoint adjustments to support mobile features.
- Conducted thorough testing across devices and network conditions.

Simply Track Web, Scriptbees IT PVT Ltd, Hyderabad – *Lead Full Stack Developer*

- Led the development of a real-time tracking dashboard using React.js with WebSocket integration.
- Architected the frontend state management system using Redux with Redux-Saga middleware.
- Designed and implemented the core tracking interface with live location visualization.
- Spearheaded API integration efforts, collaborating closely with backend developers.

- Optimized WebSocket implementation to handle high-frequency location updates.
- Ensured cross-browser compatibility and responsive design for all major platforms
- Contributed to backend API design discussions to optimize data flow for the frontend
- Conducted regular code reviews and mentored junior developers on best practices.

Parent Portal, The University of Kansas, Kansas – *Full Stack Developer*

- Developed interactive user interfaces with React.js, implementing responsive design principles.
- Built a library of reusable UI components following atomic design methodology.
- Integrated with third-party APIs for student data.
- Implemented performance optimizations including lazy loading and memorization.
- Ensured consistent cross-browser functionality through rigorous testing.
- Established unit testing coverage using Jest and React Testing Library.
- Participated in agile ceremonies and code reviews to maintain code quality.

EDUCATION

Rajiv Gandhi University of Knowledge and Technology, Nuzvid, AP Bachelor's of Science in Computer Science	2020
Rajiv Gandhi University of Knowledge and Technology, Nuzvid, AP Pre-University Course	2016
ZPHS, Chigurukota, AP Board Of Secondary Education	2014

SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frontend:** React.js, Redux, React Router
- **Styling:** Bootstrap CSS, SCSS, Styled Components
- **Backend:** SQL, Postgresql, Nodejs, Express
- **Testing:** Jest, React Testing Library
- **Tools:** Git, Vite, Webpack, npm,
